5pm – 7am Saturday and Sunday	- Time and One Half
Holidays	- Double Time

Labor Charges are NOT subject to Sales Tax.

Audience Response System, Webcasting, Simultaneous Interpretation

Audience Response System

Don't leave full minds empty handed. Keep your audience engaged and involved with Wireless Audience Response Systems.

Meeting attendees respond to questions from the meeting facilitator by pressing the appropriate key on individual wireless keypads. Charts and result graphics are then projected instantly on large screens for further discussion. Responses can be tracked for each audience member (up to 4,000), allowing for individual answers, team answers, and a variety of demographic comparisons.

Webcasting

We can deliver your presentations to an expanded audience either live or on-demand. Archiving your live meeting event using webcast technology allows your organization the ability to repack and re-purpose content over and over as the need arises.

Since sessions can be delivered via CD-ROM or on the internet, viewers can conveniently move at their own pace, navigating backward and forward for maximum understanding and impact. The uses for enduring material solutions are endless.

Simultaneous Interpretation

Getting your message across in more than one language calls for the best equipment and support. We offer wireless infrared systems for simultaneous interpretation for up to 14 languages. Let Global Interpretation Systems equip you for your next international event.

We provide:

- State-of-the-art interpretation equipment
- Push to talk conference microphone systems
- Wireless infrared systems
- Coordination of interpreters
- Portable equipment for small groups or tours
- Fully enclosed soundproof booths

We've also simplified the search for qualified interpreters. Our database of experienced language professionals lets us deliver the total solution for your interpretation needs. Interpreters must convey not just the words, but the

From sales rep trivia to boardroom strategy sessions, Audience Response is the perfect tool for a variety of data gathering opportunities.

The Audience Response System is priced per event. Information needed to provide a price quote is:

- Number of Audience Response System keypads needed for event
- Number of usage days
- Location of event
- Date(s) of event

Possibilities include:

- Member sessions, annual meetings, Continuing Education, medical symposia
- Client education, product releases and training, recruitment
- Sales meetings, corporate communications, product introductions.

Samples available. Call for Quote!

Conference CD-ROM development

We can digitize your show handouts including session descriptions, speaker bios, session handouts, abstracts, presentation materials and include them on a CD-ROM or online. Delivery options include; having the disks waiting for you at the show, hosting and delivering the content for web delivery; or even handling the complete fulfillment (duplication and mailing) to attendees.

Samples available. Call for Quote!

speakers' thoughts and ideas in another language. We hire interpreters who hold certifications from the State Department, The American Association of Language Specialists and/or the International Association of Conference Interpreters.

Interpretation systems and interpreters are priced per event. Information needed to provide a quote is:

- Will you require both equipment and interpreters?
- How many languages and what are they?
- What is the topic? (general, medical or technical)
- Is interpretation one-way or bi-directional?
- How many attendees?
- What days, times and how many rooms?
- What city and facility?

Call for a Meeting Planners Guide to Simultaneous Interpretation

**Due to space limitations, only our most frequently requested items are listed.
Please call for pricing and availability on more extensive sound, lighting, video, and computer requirements.**
